

## **What do our graduates say about their SBLM experience?**

*"...best educational experience I have had since college..."*

*"I would recommend the school to anyone desiring to achieve more personally and professionally."*

*"The (SBLM) program was rigorous, but the experience is integral to 'building the total team.' The SBLM Program provided an excellent forum for learning about leadership and teamwork."*

*"I would just like to say that AMSC has increased my overall knowledge of the Army system and I definitely gained a deeper appreciation for my military counterparts. I was proud to be an Army employee, but now it means so much more."*

*"AMSC is a DA-funded program (that's) well worth the time and energy."*

*"AMSC is the first step in creating this Army of One that we civilian and military want and need for a better Army. AMSC provided the civilian workforce with an in-depth look at the way this country does business. The networking and guest speaker program is among the best and is comparable to that of the Command and General Staff College and the War College. If you intend to be competitive in today's civilian workforce for promotions or positions of increased responsibility, AMSC should be part of your future."*

*"AMSC SBLM was one of the most challenging and rewarding academic programs of my career. I'm convinced it will have a positive impact on my future employment opportunities and my contribution to the continuous improvement efforts of today's Army."*

*"SBLM provided me a solid foundation of knowledge for how the Army and DOD operate. Many functions such as the system development process were once hazy concepts, but now they're solidified through SBLM's curriculum."*

*"I learned many great things about the military and our government, and I came away with all the potential in the world to make DOD better."*

*"A serious education for the serious student. It should be a requirement for all civilian mid- and upper-level managers."*

*"AMSC was a really dynamic environment that challenged me to stretch myself both mentally and physically."*

*“AMSC continues to be the singular most important experience I have had both professionally and personally while being employed with the federal government.”*
